

# Commercial Pool Social Distancing

To help our commercial pool clients meet the new safety requirements to safely reopen, Hastings Water Works can provide all required COVID-19 related signage upon request.

Contact your service manager or lifeguard manager to place your order or email us to request services at [services@hastingswaterworks.com](mailto:services@hastingswaterworks.com)

## Maximum Capacity of People in the Pool

Establish and post "maximum occupancy" numbers that allow for enough space to achieve social distancing in the water. These signs are in stock and available upon request.

\$63

## Manage Total Capacity

Hastings Water Works is currently suggesting our clients consider using 60 square feet per person as a starting point to determine capacity numbers inside the gated pool area. These signs are in stock and available upon request.

\$63

*Per Ohio Code, at least one restroom must be open for use – labeled unisex. All other restrooms can remain closed.*

## Maintain Proper Social Distance

Per Ohio's Safe Opening Guidelines, social distancing signs must be posted to remind patrons to stay safe. These signs are in stock and available upon request.

\$40

## Stop the Spread

Share guidelines with your poolgoers about how they can do their part to minimize the risk.

Consider reducing or eliminating the number of guests your members are allowed to bring to the pool.

These signs are in stock and available upon request.

\$40

## Help Pool Patrons Maintain Distance

Install social distancing signage/stickers/markers six feet apart on the deck, along perimeter of pool and where appropriate. One deck sign/sticker should be outside the entrance gate at six feet away and one inside the entrance gate, six feet from the gate.

These signs are in stock and available upon request.

\$11.85

Consider using a Pool Attendant to monitor the number of people entering/exiting the gated area on days you think maximum capacity could be reached. Use a strict "One Person Out – One Person In" policy when capacity is reached. (Note: a designated person to monitor capacity or social distancing is not specifically mandated by the Responsible Restart Ohio guidelines)
